How to Map

Competencies. In many work environments, employees are expected to possess a series of core competencies to adequately do their jobs. You can map and chart these behaviors to keep track of individual strengths and weaknesses. As a leader, you can then use these findings to coach as needed, while identifying

organizational
performance.

Introduction

Competency mapping is a process of identifying key competencies for a particular position in an organization, and then using it for training and development, performance management, and succession planning.
