Man in the middle is a type of eavesdropping attack that occurs when a malicious actor inserts himself as an intruder into a communication session between people or systems.

How to SPY on someone with a Man in the Middle Attack(MITM)?
DEFINITION of Man-In-The-Middle Fraud Man-In-The-Middle Fraud is a crime where an unauthorized third party obtains a consumer's or business's sensitive data as it is being sent over the Internet....

Man-In-The-Middle Fraud
In Man in the Middle, the scene is the post-war days in Iraq, the messy circumstances facing the US Army with terrorists attacks and fumbled US politic as portrays by Phyllis his CIA boss and her superiors.

Man in the Middle: Haig, Brian: Amazon.com: Books
What is A Man In The Middle Attack? The basic premise of a Man in the Middle (or MITM) attack is to redirect user communication and personal information from a trusted party to an illegitimate third-party source. The most popular sources of this attack include:

Man In The Middle Attack: What Is It And How To Prevent It
In essence, my client performs a Man-In-The-Middle attack on all of their employees, interrupting HTTPS communications via a network coordinated reverse-proxy with false certificate generation. My assumption is that the client logs all HTTPS traffic this way, capturing banking records, passwords, and similar data on their employees.

Ask Slashdot: Does Your Employer Perform HTTPS MITM ...
What is a Man-In-The-Middle Proxy An MITM proxy is a piece of software running on a device (e.g. a Wi-Fi access point or a network router) in between a client (your phone, your laptop) and the server you intend to communicate with. The proxy is able to intercept and parse the information being sent back and forth between the client and the server.

Running a man-in-the-middle proxy on a Raspberry Pi 3
Little did I know, they still regularly hack their own customers. For the second month, they alerted me via Man-in-the-middle attack and DOM injection that my data cap (Comcast still has datacaps. Pricing like it's 1999...) had reached 90%. Assuming Rietta.com wasn't utilizing TLS, this is what the message would look like:

Xfinity is Man-in-the-Middle (MITM) Attacking my Internet
"There's an African-American man, he's recording me and threatening me and my dog," she claimed. The video doesn't show the man threatening the woman.
