Numbers C11 and C12B have a non-turn locating pin which keys the jack to the mounting surface. For low contact resistance applications, jack number C12A has fine silver contacts on shunts and tip springs. MOUNTING Chassis/Panel: See Mounting Data drawing below; small hole is required only for jacks numbers C11 and C12B with non-turn locating pin.

1/4 PHONE JACKS

When you connect the pyboard to your PC, it appears as a USB flash storage device and you can access (mount) the internal filesystem and the SD card this way. If you copy a Python script to the filesystem and call it main.py then the board will execute this script when it starts up. This way you can run scripts without being connected to a PC.
