No matter how late in life you discover that you have Asperger's, there is still room for repair. Wylie points out that receiving a diagnosis can have either positive or negative effects, and what to be prepared for in either case. Self-acceptance is the key. You are then free to embark upon a new life.

strange for me to talk about how it was like growing up having Asperger's because I was diagnosed at 19 years old. It's not unusual for people with Asperger's to get a late diagnosis - they seem like neurotypical people behaving differently - but it does mean that neither I - nor my family - knew about the obstacles I could face while growing
